SUMMARY

As a software developer with 3+ years of experience, I am skilled in creating responsive and user-friendly web solutions. Proficient in frontend technologies including HTML, CSS (SCSS), Bootstrap, JavaScript, jQuery, and React JS, I am experienced in translating designs from PSD, Figma, Sketch, and Adobe XD into functional, visually appealing web pages. I am familiar with development tools like VS Code and GitHub and have a solid UI understanding of popular frameworks and platforms such as React JS, Angular JS, React Native, WordPress, and Shopify. My passion for crafting seamless digital experiences drives me to continuously improve and deliver high-quality, accessible designs.

WORK EXPERIENCE

JR. SOFTWARE DEVELOPER

UI Developer Intern (Jan-Jun 2022)

Ordex Technology And Solutions, Ahmedabad

Jr. Software Developer (Jun 2022 - Nov 2024)

- I transformed XD/Figma designs into responsive, user-friendly interfaces using HTML, CSS, Bootstrap, and JavaScript with frameworks like React, Angular, and WordPress. This role strengthened my skills in front-end development and collaboration on impactful digital solutions I have successfully completed 15 to 20 projects for this organization across various platforms, consistently delivering high-quality, accessible designs.

UI/UX & SOFTWARE DEVELOPER

(Jan 2025 - May 2025)

CodesClue Technologies, Ahmedabad

- I designed and transformed UI/UX concepts from Figma into responsive, user-friendly interfaces using HTML, CSS, Bootstrap, JavaScript, React, Angular, and WordPress.

PROJECTS

CODESCLUE WEBSITE

- Designed and developed a full-scale, responsive company website consisting of approximately 75–78 pages from scratch for CodesClue. Leveraged modern front-end technologies including HTML5, CSS3, Bootstrap 5 for grid and responsive design, AOS for smooth scroll-based animations, and Owl Carousel for dynamic sliders. Ensured cross-browser compatibility, optimized page performance, and maintained a consistent, clean UI across all pages.
- Additionally, created high-fidelity Figma prototypes for all web pages to streamline the design-to-development workflow, enabling better collaboration and iteration.
- Technologies Used: HTML5, CSS3, Bootstrap 5, AOS (Animate on Scroll), Owl Carousel, Figma

KYOBEE

- At Kyobee, I'm turning design into code to help transform hospitality with advanced features. This work enhances customer experiences in healthcare, salons, and events, making it easier than ever to elevate service.
- Technologies Used: Angular JS, HTML, SCSS, Bootstrap.
- Technologies Used (For Marketing Website): WordPress, HTML, CSS.

TWINNLAB (MY CLASS)

- At Twinnlab (My Class), I'm turning design into code to help helps you to Manage Attendance & Details of. Students in Your Class. Main Features of this app are: Add, Edit, Copy, and Remove Classes.
- Technologies Used: React JS, HTML, SCSS, Bootstrap.

TRADERFI / TRADER2B / WEB TRADER

- At TraderFI, Developed a responsive web interface for TraderFI, a real-time financial trading platform. Implemented interactive dashboards, trade execution modules, and real-time market data visualization. At Trader2B, Contributed to the development of Trader2B, a proprietary trading simulation platform for traders to practice and qualify for funding. At Web Trader, Engineered the front-end for Web Trader, an online trading application for executing stock, forex, or crypto trades.
- Technologies Used: React JS, HTML, SCSS, Bootstrap.

HEAL SASS SOFTWARE

- At HEAL, I'm converting designs into code for an AI-powered software that predicts and prevents IT system failures, creating authentication and admin data screens using Figma and Angular data grid.
- Technologies Used: Angular JS, HTML, CSS, SCSS, Bootstrap.

WE ARE AERIAL

- Designed and developed a visually captivating and fully responsive website, a premium watch brand. Focused on delivering a clean, modern aesthetic aligned with the brand identity while ensuring smooth navigation and optimal UX across devices.
- Technologies Used: WordPress, HTML, CSS.

8AM TRAVELS

- At 8AM Travel, I'm coding designs for a luxury travel platform that offers exclusive, unforgettable journeys and premium golf experiences for discerning travelers.
- Technologies Used: Wordpress, HTML, CSS.

HIGHSCHOOL BABYSITTER

- HighschoolBabysitters.com was created to connect highschoolers looking for babysitting jobs and parents of little kids trying to find highschool babysitters.
- Technologies Used: React JS, HTML, SCSS, Bootstrap.

THE COLLEGIATE LINEUP

- TCL sell custom apparel for collegiate organizations at affordable prices. We have an excellent store collection including greek designs.
- Technologies Used: Shopify, HTML, CSS.
